

PRESS RELEASE

Paris, 10 January 2008.

**DEEZER ANNOUNCES THE LAUNCH OF THE NEW VERSION OF ITS WEBSITE**

**DEEZER EXPANDS ITS NETWORK AND INTRODUCES COMMUNITY LIFE**

Deezer continues its revolution. The first streaming music website presents its new version, based on enriched content and the creation of a social network. With this new portal, Deezer enters in a new development phase with more content, more songs, more services and most of all, more features.

**CREATION OF A SOCIAL NETWORK: LIVING WITH ARTISTS, SHARING THEIR WORLD**

In this new interface, Deezer users will be able to browse through their favourite artists' world with detailed information sheets by artist and album and thereby access a lot of information: biographies, news...

In order to establish full interaction between Deezer users, users will from now on be able to create their profile, their group of friends and thus share their play lists. They will also be able to access 3 ways of listening: music on demand, smart radio and theme radios.

**DEEZER HAS GAINED MORE SONGS BY SIGNING WITH INDEPENDENT RECORD COMPANIES  
*BECAUSE MUSIC AND BELIEVE***

After *Sony BMG*, Deezer has enriched its offering with the prestigious artist catalogues of independent label *Because Music* and digital distributor *Believe*, including Justice, Charlotte Gainsbourg, Les Rita Mitsouko, Yann Tiersen... All these artists' songs will enhance Deezer's music catalogue and as a result bring the total number of songs to over one and a half million.

**ABOUT DEEZER:**

Deezer.com is the first free and legal on demand music listening website with unlimited access. Deezer users have free access to all types of music from a catalogue of more than one and a half million songs. The website, created in France in June 2006 by Daniel Marhely and Jonathan Benassaya, has been translated into 16 languages and has more than 1.2 million members to date. Deezer was voted 2007's most innovative website by 01Net readers.<sup>1</sup>
